

# Nurse & Staff Scheduling App

MazikCare helps you optimize your healthcare operations so you and your staff can focus on the highest level of care.

Clinician burnout is a severe and widespread problem in healthcare, exacerbated by pandemic conditions and, most recently, unprecedented workforce shortages.

MazikCare Nurse & Staff
Scheduling App provides nurses
and clinical staff with flexible shift
management and personal health
management experience, which
increases staff satisfaction, reduces
the burden on clinical staff, and
improves patient collections.

Globally, electronic health record (EHR) investments and adoption continue to grow. Still, system usability remains poor and is directly related to the increased risk of clinician burnout.

# Nurse & Staff Scheduling App features:

### Modern shift experience

Communicate and schedule your employees in ways that weren't possible before.

### Workforce optimization via gamification

Leverage gamification to optimize worker schedules to meet compliance and fair scheduling needs while ensuring patient safety.

### **Employee health**

Employee 360 with health, wellness, Immunization & Health Screening, and worker comp information.

### Credentialing

Create, manage, and monitor all aspects of your credentialing and certificate. The digital credentialing platform offers the most comprehensive features to process and track credentials.

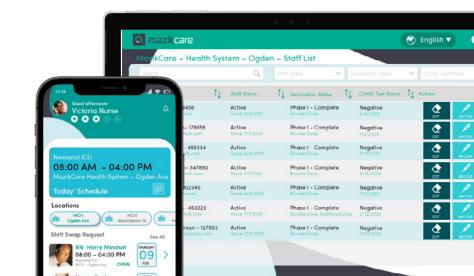

### **Bi-direction EMR connectivity**

Seamless bi-directional data integration with the EMR platforms to improve consistently information.

### Multi-language

Support 11 different languages to ensure patient satisfaction, safety and compliance.

# Activate your real-time health system with MazikCare Platform

#### **AWARE**

- Alarms & Notification
- · Patient throughout & Capacity Management
- Simplified Healthcare Interoperability

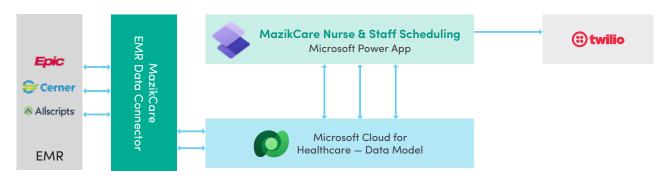

#### **COLLABORATIVE**

- Care Team Collaboration
- Clinical Communication & Collaboration
- Interactive Patient Care
- Next Generation Call

#### **SMART**

- · Patient Self-Scheduling
- · Patient Privacy Monitoring
- Patient Self-Service Kiosk
- Positive patient identification

# Nurse & Staff Scheduling App – Architecture

# Nurse & Staff Scheduling App – Implementation

#### **Client-provided Azure** environment

- Dev > Test > Prod Instances of Power Apps
- Power Apps 2 Licensure
- · Grant Quisitive Delivery Team Access
- Quisitive Team Provides Data Template

## **Quisitive Team Deploys Pre-Built Solution**

- Deploy Nurse & Staff Scheduling App • Deploy Microsoft Cloud for Healthcare Data model
- Deploy MazikCare Care Path
- Power Automate
- Configure Communication Protocol (email, text, etc.)

# **Data & Configuration**

- · Requirement Configuration
- Data Load
- Data Connectivity Configuration
- · Security Role Assignment

#### MazikCare Healthcare Cloud Platform

MazikCare Care Path empowers patients and providers to collaborate on comprehensive care plans, access health services, and promote better health outcomes. Part of Quisitive's MazikCare Healthcare Cloud Platform and powered by Microsoft Dynamics 365 and the Power Platform, Care Path is available from Day 1 to boost engagement, reduce burnout, and improve care delivery.
